## Student Demographics

## *PREFACE*

CITY FACTS 2016 describes CCNY student demographics. It is an annual publication of the Institutional Research Office (IR). Most of its twenty-five tables have a decade of information.

### Student Data: The Past Decade

Here is Fall semester enrollment trends and other student data. Total student data comes first followed by undergraduate, graduate - Masters and Engineering Ph.D. students; The CUNY Grad Center gets credit for our other PHD students.

### Notes

Context-specific references are in each table and graph in CITY FACTS. Sources give details on how CUNY treats statistical enrollment and course data.

### Data Sources and Interpretation of Statistical Tables

## ACKNOWLEDGMENTS

Thanks to the people who helped with City Facts:

Ariel Cohn - Manager of Information Systems in the CUNY Office of Institutional Research & Analysis [OIRA] - and CUNYFIRST guru. If she had not created & maintained the CUNY Instructional Research Database [IRDB] all City Facts editions would be impossible.

Rodel Sena - CCNY's Director of Application Development Services - for teaching me how to use the CUNYFIRST SQL tables and their coding; and for being the good man he is.

Beth Schneiderman, Office of Information Technology, Lyris/Web Support for all the years she has helped me. And this year for this suggesting that I try using PDF "Bookmarks".

The CUNY Office of Institutional Research & Analysis [OIRA] staff for their help with my - far too many - questions.

Ed Silverman, Director  
Institutional Research Office
