## INDEPENDENT AUDITORS' REPORT

The Board of Directors  
The City College Auxiliary Enterprises Corporation  
(A Component Unit of the City University of New York):

### Report on the Financial Statements

We have audited the accompanying financial statements of the City College Auxiliary Enterprises Corporation (a component unit of the City University of New York) (the Auxiliary), as of and for the years ended June 30, 2018 and 2017, and the related notes to financial statements, which collectively comprise the Auxiliary's financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Auxiliary's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Auxiliary's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net position of The City College Auxiliary Enterprises Corporation as of June 30, 2018 and 2017, and the respective changes in financial position and cash flows for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

## Other Matter

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 7 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Management's Discussion and Analysis, Continued**

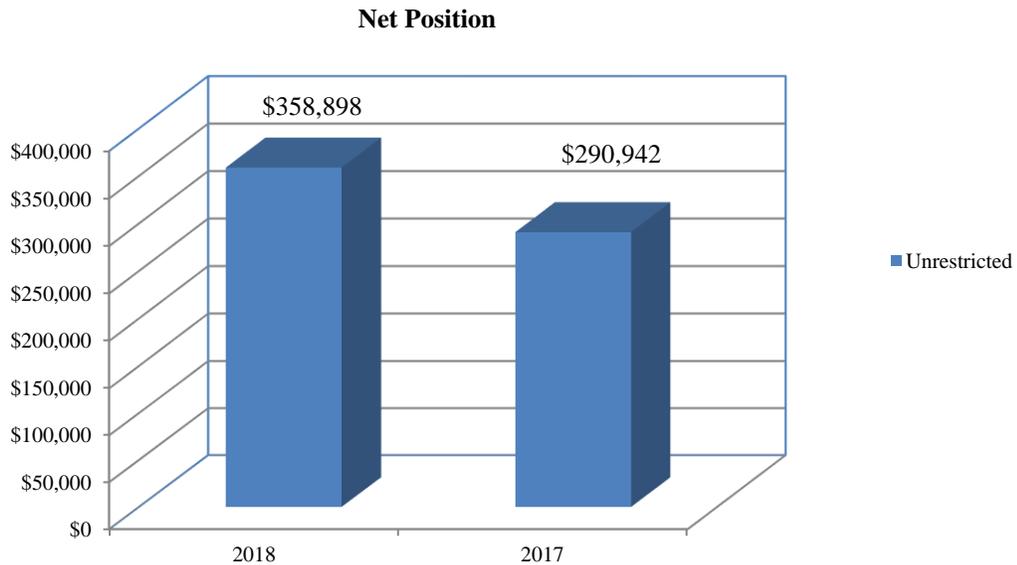

At June 30, 2018, the Auxiliary's total net position increased by \$67,956 or 23%, compared to the previous year. The major component of this variance was attributable to an increase in cash and equivalents of \$230,360 due to increase of operating revenues and receiving a repayment from a related party.

At June 30, 2018, the Auxiliary's total current assets increased by \$146,950 or 36%, compared to the previous year. The major component of this variance was attributed to an increase of \$230,360 in cash and equivalents due to the operations, receiving a repayment from a related party, and fewer support to student clubs.

At June 30, 2018, the Auxiliary's total current liabilities increased by \$78,994 or 66%, compared to the previous year. The major component of this variance was attributed to an increase of \$83,709 in other liabilities due to an increase in users' account balances in the CityOne card system, the identity card system with cash card function for the College.

There were no other significant or unexpected changes in the Auxiliary's assets and liabilities.

The following illustrates the Auxiliary's net position at June 30, 2018 and 2017 by category:

Total revenue	<u>\$ 931,022</u>	<u>494,854</u>	<u>436,168</u>	88%

The Auxiliary's total revenue for the year ended June 30, 2018 amounted to \$931,022, an increase of \$436,168 or 88%, compared to the previous year. The major components of this variance resulted from an increase in grants and contributions of \$86,340, an increase in commissions of \$205,626, and an increase of \$96,621 in the campus store sales. The increase in grants and contributions is due to receiving a grant from New York City Administration for Children's Services (ACS) through the University for assisting students from foster families in the University. The increase in the campus store sales is due to opening a campus store in 2018. The increase of commissions was mainly due to better rates in the contracts with new vendors for cafeteria and vending services.

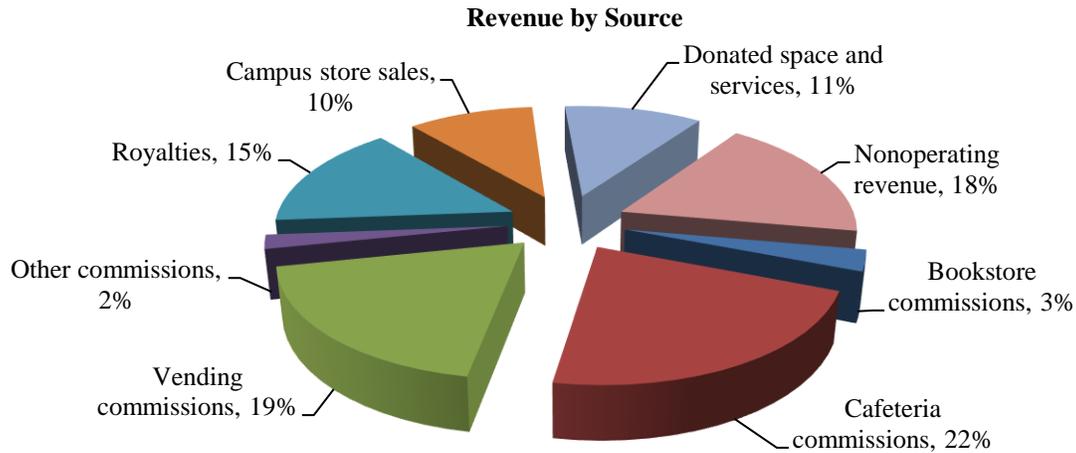

Commissions represented 47% of total revenue in 2018 and 2017 and therefore, the Auxiliary is dependent on this level of support to carry out its operations.

There were no other significant or unexpected changes in the Auxiliary's revenue.

Total expenses	<u>\$ 863,066</u>	<u>632,161</u>	<u>230,905</u>	37%

Total expenses for the year ended June 30, 2018 were \$863,066, an increase of \$230,905 or 37%, compared to the previous year. The major components of this variance related to an increase in student services support of \$45,563 due to the expenditures associating to the grant from ACS, an increase in the campus store of \$200,821 due to the expenditures associated with the campus store opened in 2018 and an increase in bad debts of \$25,674 due to writing off uncollectible receivable from food vendor. The increase was offset by a decrease in college support of \$31,835 due to transferring capital assets to the College in 2017.

Notes to Financial Statements

June 30, 2018 and 2017

(1) Nature of Organization

The City College Auxiliary Enterprises Corporation (a component unit of the City University of New York) (the Auxiliary) is a nonprofit entity organized to support certain student activities and provide facilities and auxiliary services for the benefit of the campus community of the City College (the College) of the City University of New York (CUNY or the University).

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The Auxiliary's accounting policies conform to accounting principles generally accepted in the United States of America (GAAP) and applicable Governmental Accounting Standards Board (GASB) pronouncements.

For financial reporting purposes, the Auxiliary is considered to be a special-purpose entity engaged only in business-type activities. GASB defines business-type activities as activities financed in whole or in part by fees charged to external parties for goods or services. Accordingly, the accompanying financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting in accordance with GAAP, as prescribed by GASB. For financial reporting purposes, the Auxiliary is also considered to be a discretely presented component unit of the University, as defined by GASB.

(b) Net Position

The Auxiliary's resources are classified into the following net position categories:

Net investment in capital assets - Capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction, or improvement of those assets.

Restricted - non-expendable - Net position subjects to externally imposed stipulations requiring the Auxiliary to maintain them in perpetuity.

Restricted - expendable - Net position whose use is subject to externally imposed stipulations that can be fulfilled by the actions of the Auxiliary or the passage of time.

Unrestricted - All other net position, including net position designated by actions of the Auxiliary's Board of Directors.

At June 30, 2018, the Auxiliary had no restricted net position or net investment in capital assets.

(c) Cash and Equivalents

Cash and equivalents are comprised of highly liquid instruments with original maturities of 90 days or less.

(d) Commissions Receivable

Commissions receivable are charged to bad debt expense when they are determined to be uncollectible based upon a periodic review of the accounts by management. GAAP requires that the allowance method be used to recognize bad debts; however, the effect of using the direct write-off method is not materially different from the results that would have been obtained under the allowance method.

(e) Capital Assets

Capital assets are stated at cost at the date of acquisition or fair value at the date of contribution, if donated. In accordance with the Auxiliary's capital asset policy, capital assets are defined as any asset with a useful life of at least two years and a cost or value at the time of receipt of \$1,000 or more for computer equipment and \$5,000 or more for all other assets. Depreciation is computed using the straight-line method over the estimated useful life of the asset and is not allocated to the functional expense categories. The estimated useful life of equipment is five years. The estimated useful life of building improvements is 25 years.

(f) Revenue Recognition

Revenue is recognized when earned and are primarily derived from agreements with certain unrelated organizations to provide the College with bookstore, auto teller machine (the ATM), and cafeteria and beverage services.

Bookstore commissions represent income earned under a contract with an unrelated organization to operate and maintain the campus bookstore. The contract provided the Auxiliary with annual commissions the greater of (1) an amount based on a percentage of the unrelated organization's sales at the campus bookstore or (2) guaranteed annual payment. The contract with the bookstore expired on June 30, 2017. In December 2016, the University entered into a contract with an unrelated organization which allows the organization to provide virtual bookstore services at the College. The terms of contract provides the University commissions annually. The University allocates the commissions to the College based on the University's discretion. The contract entered into by the University will end on December 31, 2021.

Cafeteria and vending commissions represent income earned under a contract with an unrelated organization for the sale of food and nonalcoholic beverages on the College's premises. The contract for cafeteria and vending services expired on June 30, 2017. The College entered a new contract for cafeteria services with an unrelated organization on July 14, 2017. The contract, which will end on July 16, 2024, provides the Auxiliary with guaranteed annual commissions of \$250,000.

(f) Revenue Recognition, Continued

ATM commissions represent income earned under a contract with an unrelated organization for offering ATM services. The terms of the contract, which expired on November 30, 2016, provided the Auxiliary with monthly commissions of \$280 per ATM on campus. The Auxiliary is currently on a month-by-month contract with the same terms.

(h) Operating and Nonoperating Expenses

The costs associated with the operation of the Auxiliary, such as rent, are recorded as operating expenses. The costs associated with support to the College and student services are classified as nonoperating expenses due to the fact that support is discretionary, is subject to change based on the budget, and is not directly related to the operation of the Auxiliary.

(i) Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and judgments that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(j) Subsequent Events

The Auxiliary has evaluated subsequent events through the date of the report which is the date the financial statements were available to be issued.

(k) Income Taxes

The Auxiliary is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code (the Code); therefore, no provision for income taxes is reflected in the financial statements. The Auxiliary has been classified as a publicly supported organization that is not a private foundation under Section 509(a) of the Code. The Auxiliary presently discloses or recognizes income tax positions based on management's estimate of whether it is reasonably possible or probable that a liability has been incurred for unrecognized income taxes. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018, which is the fiscal year beginning July 1, 2018 for the Auxiliary. GASB Statement No. 84 - "Fiduciary Activities." This Statement, issued in January 2017, established criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists.
