<p>ASCE was founded in 1852. It represents more than 133,000 members of the civil engineering profession worldwide, and is America's oldest national engineering society. ASCE's vision is to position engineers as global leaders who build a better quality of life. ASCE accomplishes this goal by providing essential services to its members, partners and the public; and by developing leadership skills, advancing engineering technology, advocating lifelong learning, and promoting the profession.</p>		

<b>Chartered Institute of Building (CIOB)</b> ciob.ccny@gmail.com		
<p><b>CURRENTLY INACTIVE</b> CIOB is the world's largest and most influential professional body for construction management, engineering and leadership. Its objective is to promote professionalism in the construction industry for the benefit of the public and/or civil engineering technology and to advance the engineering/ construction professions. The CCNY CIOB chapter strives to stimulate an early professional consciousness in students by providing them with opportunities to prepare, present and discuss journal articles; to hold office, request and entertain guest speakers; and to visit engineering construction sites.</p>

<p>Chi Epsilon is the National CE Honor Society. It was founded in 1922, and has initiated over 114,000 members at universities across the United States. Students and professionals are selected to become members based on recognition of their scholarship, character, practicality and sociability, which are considered by Chi Epsilon to be the four primary traits of a successful engineer. Scholarship is determined based on class rank as a junior or senior. Members of Chi Epsilon are highly sought by CE employers. The CCNY Chapter was founded in 1949 and was the 30<sup>th</sup> to be established. The CCNY Chi Epsilon chapter strives to provide all students with the skills and tools that they need to succeed in their future careers, by providing tutoring, resume and interviewing workshops, seminars, and field trips.</p>
