| This stu                              | ident has completed/ is completing (c | ircle one) the major 1 | equirements for a de | egree in Ch             | emistry.                          |

This student **will complete/will not complete** (circle one) all the requirements for an ACS certified degree (if the student will complete the requirements, then please send a copy of this graduation check to Denise Addison).

Date: \_\_\_\_\_

Advisor's Signature: \_\_\_\_\_

Instructions to complete the Graduation Check form.

- 1. Write the name of the student as it appears on the transcript and include the full EMPLID number of the student.
- 2. For each course, enter the grade and the term (FA, SP, or SU) and year that the course was taken. If a course was transferred from another college, enter a grade of T (for transfer) and leave the tern line blank. If a course was exempted due to AP credit from high school, enter AP for the grade and leave the term line blank.
- 3. If a course does not transfer properly, please give a comment if you are willing to approve an exception. For example, many students transfer CHEM 26200 instead of CHEM 27200. For transfer students, this is acceptable even though it is a 2 credit course instead of a 3 credit course.
- 4. Please check to make sure that the GPA for Chemistry classes is greater than or equal to 2.0.
- 5. Please check to make sure that the student completed 120 credits total.
- 6. Please check that the student meets the Residency requirement by completing a total of 80 credits at CCNY **or** the final 30 credits at CCNY, as well as at least 60% of their major at CCNY. This means that typically, transfer students with more than 40 transfer credits may not epermit any courses during their last 30 credits.
- 7. Substitutions for some courses are permitted (common example, Physics 203 and 204 for 207 and 208 for transfer students and Chemistry 26200 for 27200 for transfer students)

## For ACS certification, the student must complete the following:

General Chemistry CHEM 10301 and 10401

Foundation Courses CHEM 24300, 26100, 33000, 32002, 42500

Advanced Courses Standard Chemistry: CHEM 26300, 33200 Biochemistry: CHEM 43500, 48005

## Total laboratory hours (400 h not including General Chemistry)

*Standard Chemistry*: CHEM 24300 (60 h), 27200 (75 h), 37400 (75 h), 33100 (60 h), 43400 (75 h), Independent Study/Honors Research (minimum 55 h which is approximately 1 semester for 3 credits) *Biochemistry*: CHEM 24300 (60 h), 27200 (75 h), 37400 (75 h), 32004 (60 h), 43500 (60 h), Independent Study/Honors Research (minimum 70 h which is approximately 2 semesters for 3 credits each)
