

THE CITY COLLEGE OF NEW YORK

VIRTUAL SALUTE TO GRADUATES

JUNE 30, 2020

THE CITY UNIVERSITY OF NEW YORK

PRESIDENT'S MESSAGE

Vince Boudreau
President

Dear CCNY Graduates of the Class of 2020,

There are moments in our history that impress an indelible mark upon us, when we are called to do extraordinary things under the press of an indescribable moment. Anyone graduating in the midst of the COVID19 pandemic will be marked by this extraordinary moment. But even among that national class graduating in 2020, you are different.

At a time when the inequitable imprint of this scourge underscores the other inequities in our society, the City College—and those who work study and graduate from it—stand apart. You graduate from an institution established to redress inequality, an institution that each generation has the responsibility of scanning the social and political landscape, and setting its sights on rectifying that which sits most uneasily in the light of that responsibility.

It has been over fifty years since we have faced the kinds of challenges we face today to our democracy, to the fabric of our society, and to the health and security of our people. As an institution, we were made for this moment. As graduates of CCNY, you now shoulder the responsibility of giving voice to your vision of that just society, a vision we have worked to develop and instill in you all the days of your work with us.

You have struggled, sometimes mightily and against long odds, to reach this day, and we beam with pride at your accomplishment. You have contributed, in your questions and your ideas, to our vision, and as an institution we have adjusted that vision to account for your values and experiences. We have witnessed the flowering of your potential and expansion of your capacity.

For all of these reasons, and with sadness and joy, we now bid you farewell in the full confidence of what you will do with your gifts. Hold tight to the vision of our college, and carry it into the world as you leave. Cherish and nurture a sense of yourself as especially equipped to meet the demands of the day. Be confident in your voice, even as you venture into new and different territory. You leave our campus equipped for your professional life, with academic credentials and a full cache of skills. But you also carry a vision of a better day, and it needs constantly to be nourished by your courage and commitment.

You are the light of our lives, the fulfillment of our hopes, and our best chance at a fair and just society. I am honored to offer each and every one of you my most enthusiastic and profound congratulations.

With my warmest congratulations,

A handwritten signature in black ink, appearing to read 'V. Boudreau', written in a cursive style.

Vince Boudreau

HONORARY DEGREE

Benjamin B. Ferencz
Honorary Recipient

Benjamin B. Ferencz, a distinguished member of City College's Class of 1940, was born in 1920 in modern day Romania. His family moved to the United States when he was 10 months old. Ferencz attended Harvard Law School after graduating from CCNY, earned his law degree in 1943 and fought in World War II. At the end of the war, the young lawyer was recruited for the Nuremberg war crimes trials in Nuremberg, Germany.

In his 1988 book, "Planethood," Ferencz wrote: "Indelibly seared into my memory are the scenes I witnessed while liberating these centers of death and destruction. Camps like Buchenwald, Mauthausen, and Dachau are vividly imprinted in my mind's eye. Even today, when I close my eyes, I witness a deadly vision I can never forget—the crematoria aglow with the fire of burning flesh, the mounds of emaciated corpses stacked like cordwood waiting to be burned... I had peered into Hell."

Once the International Military Tribunal's prosecution of German Field Marshal, Herman Goering and his henchmen was concluded, the United States tried a broad cross section of Nazi criminals. Ferencz was involved in this effort, scouring Nazi offices and archives in Berlin with other researchers. They found overwhelming evidence of Nazi genocide by leading Germans in various sectors.

Appointed Chief Prosecutor for the United States in The Einsatzgruppen Case, Ferencz led the pursuit for justice in what the Associated Press called "the biggest murder trial in history." Twenty-two defendants were charged with murdering over a million people. He was only 27 and it was his first case. All of the defendants were convicted. Thirteen were sentenced to death. The verdict was hailed as a great success for the prosecution. Ferencz' primary objective had been to establish a legal precedent that would encourage a more humane and secure world in the future. He said of the experience: "Nuremberg taught me that creating a world of tolerance and compassion would be a long and arduous task. And I also learned that if we did not devote ourselves to developing effective world law, the same cruel mentality that made the Holocaust possible might one day destroy the entire human race."

During the Vietnam War, Ferencz focused on the need for a peaceful world. Ferencz dedicated himself to writing about world peace. His book "Defining International Aggression-The Search for World Peace" was published in 1975. Ferencz felt that there was little sense in denouncing aggression, terrorism, and other crimes against humanity unless these offenses became part of an international criminal code enforced by an international court. He published another two-volume documentary history, "An International Criminal Court-A Step Toward World Peace," which was intended to be a tool that nations could use to build a structure for peace.

At Harvard, Ferencz had studied jurisprudence under Roscoe Pound, one of the world's top jurists. Ferencz' research was recorded in another two-volume book, "Enforcing International Law-A Way to World Peace," published in 1983. To spread the word, he wrote another book, "A Common Sense Guide to World Peace." In 1988, Ferencz co-authored the best-seller "Planethood" with Ken Keyes, Jr. It advised ordinary citizens how to help establish international law and urged UN reform. At the end of the Cold War, the world community finally discussed the establishment of an international criminal court. When the Rome Statute was affirmed by vote in 1998, Ferencz asserted that "an international criminal court—the missing link in the world legal order—is within our grasp." Since Rome, Ferencz has been active at Preparatory Commission sessions for the ICC, monitoring and making available his expertise on current efforts to define aggression.

He continues to write and speak worldwide for international law and global peace. The City College of New York is proud to honor Benjamin B. Ferencz with the degree, Doctor of Humane Letters, *honoris causa*.

VALEDICTORIAN

Sebastian Hajtovic
2020 Valedictorian

Sebastian Hajtovic is the second consecutive CUNY School of Medicine (CSOM) at City College student named CCNY Valedictorian after the Class of 2019's Elizabeth Yim. He is graduating summa cum laude with a 4.0 GPA from CSOM's Sophie Davis Biomedical Education Program. The Queens resident has earned a BS degree in biomedical science as he continues work toward his MD in spring 2023.

Brought up in Rockaway Beach to a family of Turkish heritage, Hajtovic has been lauded as a talented researcher and gifted student by mentors. His graduation honors are numerous. They include the Dean's Award for Academic Excellence. He earned the Rudin Research Fellowship in associate medical professor Linda Spatz' lab for his work on molecular mimicry and cross-reactive antibodies in patients with lupus. He also received a Colin Powell Fellowship in Leadership and Public Service, under which he studied NYCHA housing conditions and asthma prevalence. He was also on the Dean's List for his entire undergraduate years.

Hajtovic has shown exemplary leadership and excellence outside the classroom and lab, too. Beginning in his sophomore year, he helped plan and operate a student-run once monthly free medical screening clinic at a church soup kitchen in Upper Manhattan. Under the direction of CSOM clinical professor and medical student advisor Holly G. Atkinson, it serves an extremely vulnerable population, many of whom do not have permanent residences. Hajtovic and his fellow students offer blood pressure screenings and counseling. The blood pressure testing has often caught highly elevated blood pressures, helping send patients to the emergency room in time.

Hajtovic has served as treasurer, and is currently president-elect, of the CSOM chapter of Physicians for Human Rights [PHR], mentored by Atkinson. He will work with her and fellow students in planning for PHR's 2020 National Student Conference scheduled for November at CCNY. Hajtovic has been elected to PHR's National Student Advisory Board as co-chair of the conference and is also president of the Surgery Group at CSOM. Other highlights of the Valedictorian's accomplishments include serving as a BronxCare Hospital pediatrics department intern.

At community level, when Hurricane Sandy ravaged his Rockaway Beach hometown in October 2012, Hajtovic rose up for what he described as the defining moment of his life. After the Rockaway boardwalk was destroyed, he spearheaded a project to establish a new bike path. His team gathered thousands of petition signatures, pushing the city to accelerate reconstruction efforts.

As he works toward his medical degree, Hajtovic is interested in pursuing a surgical subspecialty. His interest in neuroscience peaked in summer 2019 during a six-week research fellowship at Istanbul University, working in a neuro-immunology lab and shadowing the neurosurgery department.

Isabella Joseph
2020 Salutatorian

A member of CCNY's Macaulay Honors College, Isabella Joseph is graduating summa cum laude with a 3.94 GPA. She will receive a bachelor of architecture degree from the Bernard and Anne Spitzer School of Architecture and is the first CCNY Salutatorian selected from the Spitzer School. She minored in anthropology.

Born of Indian immigrant parents in upstate New York, Joseph is a Macaulay Honors standout. She's been hailed in the Spitzer School as "a model of the future student who pursues diverse skill sets to more effectively perform and address society's myriad of issues."

She was initially drawn to the interdisciplinary nature of architecture. With a variety of interests in high school, she found studying architecture to be the most liberating academic option for her. Once Joseph started her architectural education at CCNY, she quickly learned how much more there is to architecture beyond the design of buildings. She continues to be inspired by the broader implications of the discipline and the ways spatial and design thinking can be applied in the most pressing issues of our time.

Joseph made the Dean's list every year at City College. She helped revive the J. Max Bond Center for Urban Futures, the Spitzer School's applied research center, and recently was part of a team that developed mapping resources for community boards 9 and 10 in response to COVID-19. She gained valuable experience as an architectural intern at the global firm Kohn Pedersen Fox (KPF) Associates, collaborating with its design team on the Changi Airport Terminal 5 project in Singapore. She is currently serving as the sole student juror for the Reimagining Brooklyn Bridge competition, a joint initiative between the Van Alen Institute and NYC Council Speaker Corey Johnson's office.

Joseph's other accolades include being named a WX Women in Real Estate Scholar of Merit this April, a Rudin Scholar in spring 2019, a CUNY Chancellor's Global Scholarship recipient in summer 2018, and a United States Green Building Council (USGBC) Greenbuild Scholarship recipient in fall 2016.

Crossing disciplines, she received a Climate Policy Fellowship from the Colin Powell School. Her work included co-writing a policy brief with teammates from economics and mechanical engineering on innovative financing strategy for resilience projects at NYCHA public housing developments.

One of her most memorable moments at CCNY was when she shared her experience from that fellowship to the Colin Powell School's Board of Directors, including General Colin Powell. Joseph fondly recalled that the experience made her see herself as part of the continuum of accomplished individuals that City College has produced.

Joseph is currently completing concurrent architectural and written thesis projects also dedicated to NYCHA housing in the architecture school and the Macaulay Honors College. She is interning at Gates Ventures, working on a climate policy campaign, before returning to Kohn Pedersen Fox this fall.

She aspires to become a civically-engaged architect "who not only designs and plans infrastructure projects, but also contributes my abilities, voice, and perspective to the most pressing issues of my time."

ALUMNI ASSOCIATION'S MESSAGE

Gary Calnek
*President, CCNY
Alumni Association*

Greetings and congratulations on behalf of the Alumni Association membership to the Class of 2020 and welcome as talented sons and daughters of the City College of New York.

You and your families are justifiably proud of your graduation accomplishment. You may be the first college graduate in the family, or the first sibling. Whichever it is, your accomplishment is a source of personal and family pride.

Your degree represents the aspirations, the dreams fulfilled and validates the many sacrifices of your parents and possibly other family members. It reinforces the faith they placed in you. It establishes your achievement as a benchmark for others in your immediate and/or extended family to emulate.

It also is a personal sense of pride, confirmation, and recognition of your capabilities, as well as a harbinger of the type of success that possibly awaits you. Take time to absorb and assess this personally and celebrate the accomplishment with family.

However, your graduation has also occurred during the Covid-19 Pandemic and is somewhat bittersweet. The Coronavirus Pandemic is the equivalent of a global health tornado, upending lives, dreams, spreading sickness, sadness, economic hardship, hunger, ruin, uncertainty, and even death. It has completely reordered what you thought post-graduation held for you. It has injected pervasive sadness and layered uncertainty over your plans.

Remember as a graduate of CCNY, you come from a long and distinguished tradition, dating back to 1853, when the Alumni Association was established by the first graduation class. We are the oldest alumni association connected to a public college in the U.S.

Our alums include 10 Noble Laureates. We have played a major role in shaping NYC, the state, and nation. We as graduates from the CCNY are among the second largest number of alums nationwide that have moved into the middle class and above. Your place awaits you!

It is important that you confront the pandemic challenge and persevere over what now appears to be an overwhelming obstacle. Remember previous alums graduated during WWI, WWII, recessions, depressions, the Korean conflict, the Vietnam War, and the tragedy of 9/11.

These tragic events created the opportunity for graduates to use their talents to contribute to overcoming these major obstacles, improving our city, state, nation, and the world.

The CCNY baton is now being past to the Class of 2020. I know that you are up to the challenge and will continue the proud tradition of being “New York Tough, Smart, Strong, Disciplined and Loving.”

We also invite you to join the Alumni Association and some of our affiliates through this link, which will increase your professional network and maintain a relationship with prior and current graduates, while perpetuating the “1853 Tradition.” Your first-year membership is our gift in recognition of your graduation. Learn more at www.ccnyalumni.org.

Congratulations again!!!

Gary Calnek
President, CCNY Alumni Association

GRADUATES & DEGREE CANDIDATES

- *** *Summa Cum Laude*
- ** *Magna Cum Laude*
- * *Cum Laude*

College honors for baccalaureate degrees are conferred on graduating seniors who meet standards approved by the Academic Senate. Based on A = 4.0, the grade point averages required for honors are 3.8 for summa cum laude, 3.5 for magna cum laude, and 3.2 for cum laude. Graduation honors are computed on the basis of all college level work taken by students, including work taken at institutions other than City College. Determination of these honors is final when all work is complete.

+ School of Education graduation honors are awarded to candidates for master's degrees and advanced certificates who have a grade point average of 3.7 or higher with no grade below B, and who have exhibited high personal and professional qualities.

A BRIEF HISTORY OF THE CITY COLLEGE OF NEW YORK

This year The City College of New York celebrates the 173rd anniversary of its founding. The need for an institution like The City College was recognized as early as 1847, when the State Legislature authorized a local referendum to determine whether a public college should be established in the City of New York; at the time, the city had a population of a half-million people and two private colleges, which had high tuition and only 247 pupils. The vote was overwhelmingly in favor of the proposition, and the Free Academy was established in a new building at Lexington Avenue and 23rd Street. The doors to its first entering class opened in January, 1849, and a class of seventeen young men graduated in 1853; with friends and family members, that first commencement was too large for the chapel at the Free Academy, so it was celebrated in Biblo's beer garden.

In 1866 the name of the Free Academy was changed by legislative act to The College of the City of New York. Since then, it has been called CCNY—an unofficial designation the College retained even after its name was again changed in 1929 to The City College. Students, alumni and friends call the College, simply, “City.” The college colors, lavender and black, were chosen by the student body in 1866. The beaver, symbol of intelligence, industry and determination, was voted to be the College's official athletics' mascot by a student-wide poll in 1934.

The governing body of the College, originally the Board of Education, was replaced in 1900 by a separate Board of Trustees appointed by the Mayor. In 1926, the Board of Higher Education was established to govern both City and Hunter College (founded in 1870), and subsequently the entire City University system, established in 1961. After

primary responsibility for funding the University became that of New York State rather than New York City, an enlarged Board of Trustees, appointed by the Governor and the Mayor, assumed control in 1980.

The City College of New York, originally limited to undergraduate programs in classical and practical courses of study, has continually enlarged both the breadth and the depth of its offerings. Today it offers more than sixty undergraduate programs and majors and more than forty graduate programs, including PhD programs in six disciplines.

The City College moved to its present location in 1907, and now occupies a thirty-five acre Neo-Gothic and modern campus on historic St. Nicholas Heights. It is really a small university, with a College of Liberal Arts and Science and four professional schools—the Bernard and Anne Spitzer School of Architecture, the Grove School of Engineering, School of Education, and the CUNY School of Medicine (formerly the Sophie Davis School of Biomedical Education).

The City College is the nation's flagship institution of public higher education, predating the midwestern state and land-grant colleges by two decades. It is the number 2 college in the nation with the greatest success of ensuring the social mobility of our students. For more than 170 years it has been a primary avenue of advancement for generations of New Yorkers who might not have had the chance to attend college. Today it continues to fulfill the aim of its founder, Townsend Harris, who said: “Open the doors to all—Let the children of the rich and the poor take their seats together and know of no distinction save that of industry, good conduct and intellect.”

Lavender, My Lavender

Sturdy sons of City College
Trusty hearts and mighty hands
Rally where your streaming banner
With its dauntless emblem stands.

Send a cheer to heaven ringing
Filled with love and fond acclaim
Faith and pride in Alma Mater
And her never dying fame.

Lavender, my Lavender
Lavender, my Lavender,
On the fields of life's endeavor
Bound by ties that naught can sever
Hail we Alma Mater ever!

Lavender, my Lavender.
Daughters fair of City College
We are wise and we are strong.
We will bring you pride and glory
With our life's unending song.

All will join us in our singing
Songs of love and fond acclaim
Faith and pride in alma mater
And her never dying fame.
Lavender, my Lavender
Lavender, my Lavender,
On the fields of life's endeavor
Bound by ties that naught can sever
Hail we Alma Mater ever!
Lavender, my Lavender.
