

Civil Engineering Advisors List

Fall 2020 - Spring 2021

2/26/2020 BW

It is very important to get advised on time because advisors may not be available outside of advisement month. It is also important to meet with your assigned advisor because the assignments are intended to distribute responsibility fairly.

How advisement works: Please contact your assigned advisor to set up an appointment. Undergraduate students should also share with their advisor their advisement form which is prefilled before the meeting and their unofficial transcript. If you are unable to download your transcript because you have a hold on your account, let your advisor know; otherwise, you must share it.

Undergraduate students: Your assigned advisor is based on the number of credits or the spelling of your last name. *For example, if your last name is "Smith" and you have completed less than 45 credits, your advisor is Ms. Shuman, but if you have completed 45+ credits, your advisor is Prof. Tang. Even if you are on academic probation/contract, you should still be advised during advisement month.*
