A Model Proposal Development Timeline

Step 1: Locate an appropriate Request for Proposals (RFP)
- Check PIVOT-RP, GrantForward, Grants.gov, Philanthropy News Digest, etc.
- Try to give yourself at least a few months to put a proposal together if you can.

Step 2: Schedule a mock panel review with RFCUNY's Proposal Peer Review Program
- Other CUNY faculty will form a panel and provide feedback on your proposal.
- Remember to do this well in advance of submission so you have time to revise.

Step 3: Seek out writing support
- Dr. Jackie Lee Weissman
- jweissman@ccny.cuny.edu
- RFCUNY Award Pre-Proposal Support (APPS)
- Assistance is available at all stages of proposal development.

Step 4: Submit a Proposal Assistance Request System (PARS) ticket
- Let Grants and Sponsored Programs (GSP) know you will be submitting a proposal well in advance.
- PARS ticket MUST be submitted at least 10 business days (2 weeks) prior to final proposal submission.
- Submit a PARS as soon as you know you will be submitting to a call.

Step 5: Submit final budget and draft via Cayuse system
- Due at least 5 business days before submission deadline

Step 6: Submit final proposal documents via Cayuse system
- GSP makes a final submission to the sponsor
- Due at least 2 days before submission deadline

Step 7: WRITE

GLOSSARY

RFP  Request for Proposals. An open call from a sponsor organization for faculty to submit proposals. Also used to refer to the document that details the sponsor’s rules for preparing and submitting a proposal for a specific call.

PARS  Proposal Assistance Request System. Submit a PARS ticket to GSP well in advance (at least 10 days, but much more time preferred) of any planned proposal submission so that they have time to review the RFP and plan for your submission. It’s a good idea to submit as soon as you decide to submit a proposal to a call.

Cayuse  GSP utilizes a grant management software for research administration from Cayuse, LLC. Several key modules available from Cayuse are currently used to prepare for proposal submissions, administer grants, and manage other compliance records. At CCNY, we use Cayuse 424 as the submission portal for proposals that are sent to Grants.gov, a common portal used by a wide range of federal sponsors. This provides our faculty researchers and support staff an easier interface to Grants.gov.

GSP  Grants and Sponsored Programs. The primary responsibility of the Grants and Sponsored Programs office is to provide the CCNY campus with professional guidance and administrative support for all sponsored research activities. Their goals are to improve the overall grant preparation and submission experiences for the Principal Investigators (PIs), enhance efficiency in our services, and ensure all sponsored research activities comply with the federal, state and institutional research policies and mandates.

IACUC  Institutional Animal Care and Use Committee. The Institutional Animal Care and Use Committee (IACUC) is the university body charged with the responsibility for reviewing the university’s program for the humane care and use of animals. The IACUC provides oversight for all animals used for teaching and research purposes.

IRB  Institutional Review Board. The Institutional Review Board is an administrative body tasked with protecting the rights and welfare of human research subjects at CCNY. All human subjects research must be reviewed and approved by this board before any work can be done.

RFCUNY  The Research Foundation of the City University of New York. RFCUNY is responsible for the administration of all externally funded programs at CUNY institutions. Working closely with individual PIs and Grants Officers on the campuses, RFCUNY oversees employment, accounting, audit, reporting, purchasing, and special responsibilities that include management of a planned giving program; liaison with governmental agencies and foundations; negotiation of agreements; facility construction and renovation; protection and commercialization of intellectual property; and compliance with applicable standards in research involving human subjects, animal care, environmental and radiological safety, and conflicts of interest.
