<tr>
<th><strong>Glossary</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>RFP</strong></td>
</tr>
<tr>
<td>• Request for Proposals. An open call from a sponsor organization for faculty to submit proposals. Also used to refer to the document that details the sponsor’s rules for preparing and submitting a proposal for a specific call.</td>
</tr>
<tr>
<td><strong>PARS</strong></td>
</tr>
<tr>
<td>• Proposal Assistance Request System. Submit a PARS ticket to GSP well in advance (at least 10 days, but much more time preferred) of any planned proposal submission so that they have time to review the RFP and plan for your submission. It’s a good idea to submit as soon as you decide to submit a proposal to a call.</td>
</tr>
<tr>
<td><strong>Cayuse</strong></td>
</tr>
<tr>
<td>• GSP utilizes a grant management software for research administration from Cayuse, LLC. Several key modules available from Cayuse are currently used to prepare for proposal submissions, administer grants, and manage other compliance records. At CCNY, we use Cayuse 424 as the submission portal for proposals that are sent to Grants.gov, a common portal used by a wide range of federal sponsors. This provides our faculty researchers and support staff an easier interface to Grants.gov.</td>
</tr>
<tr>
<td><strong>GSP</strong></td>
</tr>
<tr>
<td>• Grants and Sponsored Programs. The primary responsibility of the Grants and Sponsored Programs office is to provide the CCNY campus with professional guidance and administrative support for all sponsored research activities. Their goals are to improve the overall grant preparation and submission experiences for the Principal Investigators (PIs), enhance efficiency in our services, and ensure all sponsored research activities comply with the federal, state and institutional research policies and mandates.</td>
</tr>
<tr>
<td><strong>IACUC</strong></td>
</tr>
<tr>
<td>• Institutional Animal Care and Use Committee. The Institutional Animal Care and Use Committee (IACUC) is the university body charged with the responsibility for reviewing the university's program for the humane care and use of animals. The IACUC provides oversight for all animals used for teaching and research purposes.</td>
</tr>
<tr>
<td><strong>IRB</strong></td>
</tr>
<tr>
<td>• Institutional Review Board. The Institutional Review Board is an administrative body tasked with protecting the rights and welfare of human research subjects at CCNY. All human subjects research must be reviewed and approved by this board before any work can be done.</td>
</tr>
<tr>
<td><strong>RFCUNY</strong></td>
</tr>
<tr>
<td>• The Research Foundation of the City University of New York. RFCUNY is responsible for the administration of all externally funded programs at CUNY institutions. Working closely with individual PIs and Grants Officers on the campuses, RFCUNY oversees employment, accounting, audit, reporting, purchasing, and special responsibilities that include management of a planned giving program; liaison with governmental agencies and foundations; negotiation of agreements; facility construction and renovation; protection and commercialization of intellectual property; and compliance with applicable standards in research involving human subjects, animal care, environmental and radiological safety, and conflicts of interest.</td>

Proposal Development

We prioritize two kinds of proposals:

• **Large and Multi-PI Proposals:** “big” opportunities that necessitate complex proposals featuring multiple PIs (e.g., center-level funding)

• **Early-Career Faculty Proposals:** The Office of Research fosters the success of early-career faculty by helping them grow their grant-writing skills.
We offer a variety of proposal development services to faculty.

Early Career Writing Club

• Now in 2nd semester
  • Fall – Chalk Talks/Finding Opportunities
  • Winter – Broader Impacts
  • Spring – Craft/Peer Editing
• Biweekly meetings, cycling virtual and in-person
• Designed to accommodate different levels of engagement

This will be a structured opportunity for Early Career Researchers (pre-tenure faculty) to receive peer feedback and professional development throughout the proposal development process. This group is meant to be comprehensive, taking an idea from early stages to final submission and building a community of support along the way.
