

BME Student, best wishes on your decision to take an independent study course. Independent study allows you to learn more about a subject or topic you would like to explore in greater depth. Your BME faculty member will create your course, determine what you study, and then work one-on-one with you to earn academic credit.

REQUEST FOR INDEPENDENT STUDY

-If you would like to take an independent study to satisfy a 1 credit engineering or tech elective, you should take BME 59001.

-If you would like to take an independent study to satisfy a 2 credit engineering or tech elective, you should take BME 59002.

-If you would like to take an independent study to satisfy a 3 credit engineering or tech elective, you should take BME 59003.

Steps to complete Independent Study Form

STEP 1. Identify the course you would like to take and discuss with your BME advisor as well as the BME faculty member who has agreed to oversee the coursework and/or assignment(s).

STEP 2. Once you have an understanding of the coursework and/or assignments required for the course, complete the "Request for Independent Study" form with the BME faculty member who agreed to supervise the coursework and/or assignments. Once complete, the faculty member will sign and forward to appropriate office for registration.
