## CÁTEDRA VARGAS LLOSA

Established by the Miguel de Cervantes Virtual Library Foundation, the creation of the Cátedra Vargas Llosa is an academic project that aspires to become one of the most prestigious and innovative initiatives in Europe and the Americas. The Cátedra Vargas Llosa is open to universities, educational institutions, and organizations. Its aim is to promote the study of contemporary literature and culture and to encourage new Ibero-American writers. The City College of New York is committed to teaching and research in the Humanities and the Arts and supports the study of and engagement with a wide variety of global languages and literatures. The Cátedra Vargas Llosa project at City College will enrich the educational experience on campus and foster communication within the academic community of New York City and internationally.
