

General Information

Environmental Health and Occupational Safety (EHOS) offers safety training sessions as required for all lab personnel (but not limited to): principal investigators, laboratory technicians, graduate students, post-doctoral fellows, researchers or any visiting personnel working in a lab. It is **MANDATORY** that any individual who has not received initial training **MUST** attend EHOS safety training, **BEFORE** working in a lab on campus. Information on the respective safety trainings is presented below. Please direct any questions or concerns regarding the schedule to ehos@ccny.cuny.edu.

To register, please fill out this form using your CUNY First credentials to log in. When filling out your contact information, be sure to use your CUNY e-mail account (i.e., citymail, ccny, gc, rf).

Trainings will take place in person in the room designated in the schedule. Zoom and hybrid meetings are currently unavailable.

Fire Safety: Certificate of Fitness C-14

The City of New York Fire Department requires that all non-production chemical laboratories have a Certificate of Fitness for Non-Production Chemical Laboratories (C-14) holder to be present at all times during operation. The certificate is site specific to the City College campus and for the respective certificate holder. City College requires C-14 training to be completed once, as long as renewals of the certificates are maintained. For more information about applying for a Certificate of Fitness, visit:

OSHA Laboratory Safety Standard

This training includes information on lab standards and regulations set forth by OSHA. It includes potential hazards associated with the lab environment, along with applicable exposure control measures. City College requires the training to be completed every three years.

RCRA Hazardous Waste Management

Hazardous Waste Management (HazWaste) Training includes information pertaining to EPA regulations governing proper disposal of waste generated during research or experiments. City College requires this training to be completed annually as per EPA regulations.

Biosafety: Bloodborne Pathogen Safety

Biosafety Training includes information related to bloodborne pathogen safety and the City College Exposure Control Plan. City College requires that individuals working in a lab with Biosafety Level 2 (BSL-2) or higher have training in bloodborne pathogen safety. [This training is provided online through CITI.](#)
