Dean Mercado's Welcome Message

Every summer, CPS releases a catalog for those who want to take advantage of our offerings between the busy Fall and Spring academic semesters. Our commitment to excellence and innovation remains unwavering. Scholas' 2023 report on "The Future of Tech in America" showed that 98% of surveyed 650 C-suite executives, 100 hiring managers, and 1,500 office workers agreed that "tech skills are likely to be essential across every work sector in the next ten years." There is currently a lot of conversation about artificial intelligence (A.I.). To stay at the forefront of job market demands and academic innovation, we launched five A.I. courses in the Fall and Spring Semesters 2024/25 for adult workers and students who wanted to explore A.I.'s role in the workplace. These A.I. introductory courses are aligned with rapid changes in the health care, technology, and cybersecurity sectors. In Spring 2025, we returned with CISCO Cyber Ops, CompTIA A+, and Google IT Support courses.

Our Allied Health program launched a grant from the Department of Labor (DOL) to offer several courses such as Certified Clinical Medical Assistant, Medical Interpreter, EKG and Phlebotomy Technician for free to underemployed and unemployed individuals. The grant allowed our students to receive training at no cost with all materials included and enhance career prospects. We are partnered with Northwell Hospital (Northwell Flexstaff) to make available externships to our Certified Clinical Medical Assistant students and graduates.

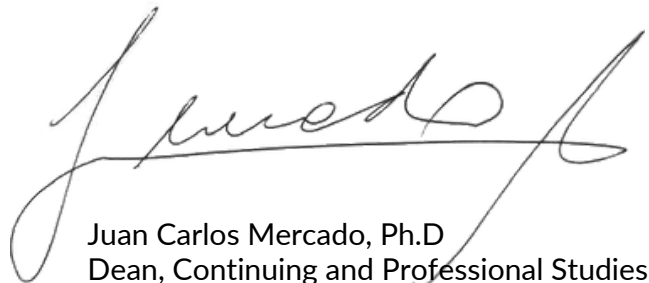

Our commitment to advancing workers is evident in our expansion of course offerings in key areas such as healthcare, information technology, workforce-based ESOL and GED programs, and our English Language Institute (ELI) for aspiring college students. In Spring 2025, we expanded ELI from our CCNY West Harlem campus to Wall Street, where international students and NYC residents learned intensive English while taking advantage of the many learning opportunities downtown. While our ELI students choose CCNY for its excellent intensive English programming, they also recognize that New York City is the best city in the world to learn English.

This summer, CPS will launch a new three-year grant from NYC Small Business Services (SBS) to help immigrant restaurant workers improve their English in the workplace. In 2024, our new CPS Director, Bino Realuyo, a lead grant writer, partnered with Paul Shively, Director of CLIP at BMCC, and was awarded a Vocational English as a Second Language (VESL) grant. They will collaborate with restaurant employers to provide 150 limited English proficient food service workers with on-site and remote English for Speakers of Other Languages (ESOL) classes. Our new funding includes curriculum development, program delivery, wrap-around supportive services, and an opportunity to elevate the economic lives of one of the most overlooked segments of our working population.

I wish you the most wonderful summer! Check our summer catalog for new offerings—from a graphic novel course with artist Dario Bolivar to discounted children's yoga training at Prema Yoga Institute. Also, visit our new website and take advantage of our certificate programs from wherever you are in your career path, embracing the unique learning experience at CPS.

Summer 2025 Holidays and Breaks

Saturday, May 24 - Monday 26	Memorial Day Weekend	CCNY/CPS Closed - No Classes
Thursday, June 19	Juneteenth	CCNY/CPS Closed-No Classes
Saturday, August 30 - Monday, September 1	Labor Day Weekend	CCNY/CPS Closed - No Classes

Please always check with our CPS staff and instructors about your specific class schedules and breaks. Our classes do not necessarily follow the CCNY academic calendar. We may hold classes during academic breaks (Spring break, etc.).

Learn
with us!

Our Policies

How to Register

Our certificate programs are designed to equip adults with the appropriate level of skills in the least amount of time possible to prepare them for the workforce. **Most programs require at least a high school or HSE diploma for admittance.** Please review the specific certificate program prerequisites and REGISTER ONLINE>

Our catalog has QR codes that link to our CPS website and course pages.

You must have an account with us in order to register. Please visit our website ccny.cuny.edu/cps and click [Registration](#) in the menu. Once in our registration page, click “Create Account” to create an account on our system that will allow you to register and add courses to your cart. Now you’re ready to checkout!

Enrollment Requirement

CPS courses are accessible and open to the public. They are available in various formats and modalities: in-person, hybrid, online synchronous (e.g. in real time on Zoom), and online asynchronous (e.g. discussion boards). This flexibility allows our students to align their learning goals with their preferred learning mode. Enrollment at CCNY is not required to take our non-credit courses. **However, a high school or HSE diploma is required to enroll in most of our certificate programs.**

Payment Plans

Students can apply for a payment plan for open courses with a tuition cost of \$500 or more. A 50% of tuition deposit plus a non-refundable \$25 registration fee are required to enroll in a payment plan. An additional 10% fee will be charged to the tuition fee when selecting the payment plan option. Please find more information on our payment plan page or email us at ace@ccny.cuny.edu for more information.

Refund Policy

Refund requests must be submitted in writing via email at least five business days before the first day of class. A 100% refund, including the registration fee, will be issued if CPS cancels a course. If the student withdraws at least five business days before the first day of class, a 100% refund will be issued (less the \$25 registration fee). Refunds for one- or two-day workshops are only issued if the class is canceled. Be advised that non-attendance does not constitute a withdrawal or request for a refund. It is important to note that refunds are not issued after the first class session.

Refund requests are processed within approximately 6 to 8 weeks upon receipt and approval by CPS. Credit card refunds are credited to the card used for registration. Payments made by money orders and business checks are refunded via a mailed check.

Our Policies

Discounts

Senior citizens 60 years or older receive a discount of \$25 applied towards the \$25 registration fee for any open course costing \$99 or more (except computer courses). CCNY faculty, staff, students, and CCNY Alumni Association members receive a 10% course discount (exclusions may apply). A 10% discount on tuition is also available when your referral registers for a course of equal or greater value. Once eligible, you must present a valid ID confirming your current CCNY affiliation. Discounts cannot be combined with any other offers.

Course Date Changes & Course Cancellations

CPS courses are subject to a minimum enrollment. We reserve the right to cancel any class that does not meet the minimum registration required. If a course is canceled, students will receive a full refund. All course dates are subject to change as deemed necessary by CPS.

Classroom Location

Students enrolled in on-campus classes will receive an email with classroom information within one week of the course start date.

Incomplete (INC) Grades Policy

The grade of "INC" (incomplete) is temporary and given by the instructor with the following guidelines:

When the student has been consistent with passing coursework, and the instructor acknowledges the student can successfully complete the course requirements by the last day of the eighth week, or its equivalent in calendar time, of the following semester. The student must provide an acceptable and documented reason for not completing the coursework on time.

If the student does not submit the coursework accordingly, the grade will change to an "F" (Fail), and the student will forfeit the possibility of changing the incomplete status. The "F" grade will be permanent on the student record unless the instructor has submitted a passing grade. CPS will convert temporary "INC" grades to "F" by the ninth week of the following semester.

Our Policies

Grants and Scholarships

Career Success Scholarship: The Helena Rubenstein Foundation has long supported Continuing Education students at CUNY who pursue career advancement through education and training. Students who need tuition assistance can apply for the Helena Rubenstein Career Success Scholarship, which is available to cover up to 90% of a certificate program's tuition fees. Scholarship availability is limited and decisions are made by the CUNY office. Application begins on October 2024 for the Spring 2025 semester.

Prospective students interested in enrolling at CPS should contact CCNY CPS Associate Director Denisse Fernandez, at dfernandez2@ccny.cuny.edu. For more scholarship information, visit: <https://www.cuny.edu/academics/cpe/helena-rubinstein-scholarship/>

Free GED/ESOL Courses: Since 1985, the CPS grant-funded Adult Education Program has served adult learners by providing tuition-free classes that prepare its students to gain access to higher education, pursue post-secondary training, and build their knowledge base to secure employment and achieve financial independence. These program efforts continue to strengthen the Harlem community and the greater New York area.

We offer General Education Development (GED) preparation classes for students to obtain a High School Equivalency (HSE) Diploma, and English for Speakers of Other Languages (ESOL) courses that help non-English speakers achieve competency in reading, writing, speaking, and comprehension of the English Language. Additionally, students receive college and career advisement, and job readiness and job placement assistance. The classes are available in the morning and evening on weekdays. Students must first attend an orientation and take a placement test before registration. Registration is on a first-come, first-served basis. Please complete the waiting list form below:

GED waiting list registration form: <https://www.ccny.cuny.edu/cps/ged>

ESOL waiting list registration form: <https://www.ccny.cuny.edu/cps/esl>

Closings Due to Weather

CCNY can occasionally be closed due to extreme weather conditions. If there is a blizzard or other hazardous weather conditions, please call 212-650-7000 or visit www.ccny.cuny.edu for more information. You may sign up for CUNY Alert at <https://www.cuny.edu/cuny-alert/>

Certified Nursing Assistant (CNA)

This 130-hour certificate provides the necessary knowledge and skills to become a nationally certified nursing assistant.

Course topics include Anatomy and Physiology, Basic Life Support, and the Fundamentals of Patient Care. Students will learn how to assist patients with daily living tasks by providing primary care services, such as bedmaking, grooming, and measuring vital signs.

We are a NYS Education (NYSED) approved learning format, consisting of online synchronous classroom instruction and a 30-hour in-person clinical externship at a nursing facility. Students are assigned to a clinical externship in a nursing home during the program's final 4 to 6 weeks.

Certified Nursing Assistants (CNAs) work under the supervision of a registered nurse (RN), licensed practical nurse (LPN), physician assistant (PA), nurse practitioner (NP), medical doctor, or other supervisory staff in a healthcare facility.

Sessions: Classes are hybrid.

June 23 - August 18

Mondays through Thursdays
6 - 9 p.m.

Discover a career you'll love while helping others!

To learn more, visit:

www.ccny.cuny.edu/cps/cna

Tuition:

\$1,260 Textbook and exam fees are not included in tuition.

Classes are hybrid:

Lectures are held online through Zoom and Google Classroom, and clinical externships are in person at a nursing facility.

Prerequisite:

High School or HSE Diploma

SCAN

Phlebotomy Technician

Our HYBRID 60-Hour Phlebotomy Technician certificate program is perfect for CNAs and other patient care professionals who want to become Certified Patient Care Technicians (PCTs) and are passionate about helping others.

Students will learn how to draw blood from patients or donors, assemble equipment (such as needles, blood collection devices, gauze, tourniquets, cotton, and alcohol), obtain blood from capillaries, and will play a vital role in the diagnosis and treatment of diseases.

In collaboration with the Psychology Department of the Colin Powell School for Civic Leadership at CCNY, we provide the NYS OASAS-certified CASAC Training Program. **This program offers ten (10) OASAS-approved courses that meet NYS 350 hours of education training required to obtain the CASAC-Trainee credential.**

Topics include:

- The psychopharmacological and physiological aspects of drugs, signs, symptoms, and stages of alcoholism, individual and group counseling skills, the ethics of confidentiality, family treatment, and multicultural issues.
- The training will prepare you for a career in substance abuse counseling or enhance your skills as a social worker, psychologist, psychiatrist, rehabilitation counselor, mental health counselor, substance abuse counselor, marriage and family therapist, or school counselor.

CASAC Credential Information:

Completion of 350 hours of education/training, supervised-practical training, documented work experience, and passing the NYS-OASAS written examination are required for the CASAC designation. For complete information on the CASAC credentialing process in NYS, please visit <https://on.ny.gov/3nlyWHb>.

High School or HSE Diploma

Kid's Inclusive Yoga Teaching Certification

Teach kids yoga and watch them shine!

Are you a teacher, parent, health and wellness provider, or just looking to bring your love of yoga to kids of all ages? Then this online, all-in-one Yoga Alliance Certification program is for you!

This engaging course provides everything needed to inspire children through the joyful practice of yoga. Led by two experienced children's yoga teachers who are also certified yoga therapists, the Kid's Inclusive Yoga Training prepares you to lead fun, safe, and meaningful experiences for kids of all abilities and ages. And unlike most kids certifications, you will learn the science behind the methodology to adapt your teaching in therapeutic settings as well.

Our Child Development module offers valuable insights into how children grow physically, emotionally, and socially, helping you craft lessons that truly resonate. You'll master a variety of Adapted Asanas with playful, age-appropriate variations to keep kids safe, active, and excited about practicing.

Discover simple breathing techniques that help children handle stress, stay focused, and find calm amidst their busy days. Our Mindfulness and Meditation sections introduce easy-to-understand practices that boost attention and emotional awareness in ways kids love. Plus, you'll learn how to translate deep Yoga Philosophy into fun, relatable ideas that spark curiosity and inspire confidence.

Upon completion, you will be eligible for the following certifications:

- Certification of Completion to become a Registered Children's Yoga Teacher "RCYT" with Yoga Alliance
- Concurrently earns you 50 hours of electives in Prema Yoga Institute's Yoga Therapy Program or
- 50 hours of Applied Professional Development ("APD") with IAYT

Tuition: \$1,195

Language, Arts, and Culture

Learning English will allow you to speak with around 2 billion people. This is a huge chunk of the world's population, which has made English the unofficial language of international business.

English Language Institute (ELI) *Intensive* English Classes!

CCNY's English Language Institute (ELI) provides intensive instruction and practice for non-native speakers who want to improve their English skills for academic and professional development. Our English program is designed for both international and local NYC residents who want to prepare for studying in an American University and for improving their job opportunities. After completing the English Language Institute, students can apply for undergraduate and graduate programs at CCNY and waive TOEFL requirement. In 2025, our advanced English class will be on Wall Street, giving students access to the rich heritage of downtown Manhattan. Learn WITH us! SCAN QR Code for more info!

Free

English Classes and GED Preparation

ONLY for NYS residents.

We are funded by the NYS Workforce Innovation and Opportunity Act (WIOA) which allows us to offer adult education classes tuition-free. In order to participate, adult students must be: (1) 19 years old or older, (2) a NYS resident, and (3) available for employment.

Our GED Preparation classes prepare students to pass the GED (General Educational Development) Exam leading to a High School Equivalency (HSE) Diploma as well as building students skills for success in college and the workplace. We are a combined workforce and ESOL program funded by the New York State WIOA program. The program helps non-native English speakers develop proficiency in grammar, reading, listening, speaking and writing skills as well as building students skills for success in the workplace.

Due to high volume of applicants, both courses are on waitlist applications. These are on a first come, first served basis. We have a waiting list for both classes: [English Class waiting list](#) and [GED Waiting List](#)

Traditional Techniques in Graphic Storytelling

This comprehensive course delves into the art of graphic storytelling, emphasizing traditional drawing techniques while allowing participants the flexibility to use either iPads (tablets), smartphones or sketchbooks as preferred tools. Students will learn the foundational principles of storytelling, character design, and scene composition. The course integrates hands-on practice, encouraging students to explore traditional and modern tools to refine their storytelling and artistic skills.

Taught by 2021 Emmy award recipient Dario Bolivar; a digital artist, animator, and motion graphic designer known for his works in film festivals across the country and founder of [Dariobol](#).

Learning Objectives:

- Master traditional drawing techniques for comics and graphic novels.
- Empower old-school methodologies and the use of traditional media such as pencils and paper.
- Utilize sketchbooks or iPads effectively for brainstorming and storyboarding.
- Explore free and professional design software for enhancing illustrations.
- Draw inspiration from and relate the content of comics and cinema for enriched storytelling.
- Create a short, 6-page graphic novel combining traditional and digital techniques.

Session: Class is in-person

Dates and Times:

July 9 - 31
Wed and Thurs
6 - 9 p.m.

By the end of the course, students will produce a fully realized 6-page graphic novel that showcases their mastery of traditional and modern storytelling techniques. This project will reflect their creative interpretation and visual narrative skills.

Tuition: \$375

Architecture Summer Career Lab

Hosted at New York City's flagship public school of architecture, this 4-week Summer Career Lab introduces architectural practice, theory, making, and thinking to those considering career in the field. Within a state-of-the-art facility and taught by faculty from the Spitzer School's NAAB- accredited degree programs, **the Summer Career Lab will be organized around a diverse set of events and exercises including:**

- Lectures on architectural fundamentals
- Workshops on drawing and making
- One-on-one critiques and collective pin-up reviews
- Field trips and on-site work across the city, including in City College's historic Manhattanville and Hamilton Heights
- Presentations from award-winning architects, historians, and designers
- Office tours
- And much more...

With an emphasis on contemporary architectural thinking and practice, the Summer Career Lab curriculum will involve digital fabrication and computer-aided design, ecologically attuned and sustainable thinking, interdisciplinary research, and architecture in/as cultural discourse.

- Prior experience is not required. Admission is on a rolling basis.
- All attending students will receive a small kit, including essential tools and materials for drawing, modeling, and more.
- Students must be sixteen years of age by the program's start date to enroll in pre-college courses. Students enrolling in college-level courses must be eighteen years or older by the program's start date or have completed one year of college study.
