

### General Information

Environmental Health and Occupational Safety (EHOS) offers monthly safety training sessions as required for all lab personnel (but not limited to): principal investigators, laboratory technicians, graduate students, post-doctoral fellows, researchers or any visiting personnel working in a lab. It is **MANDATORY** that any individual who has not received initial training **MUST** attend EHOS safety training, **BEFORE** working in a lab on campus. Information on the respective safety trainings is presented below. Please direct any questions or concerns regarding the schedule to [ehos@ccny.cuny.edu](mailto:ehos@ccny.cuny.edu).

To register, please fill out this form. When filling out your contact information, be sure to use your CUNY e-mail account (i.e., citymail, ccny, gc, rf).

## Registration Form - Summer Session

Trainings will take place in person, on campus at CCNY. Detailed location information will be sent to registered attendees prior to the date of training. Zoom and hybrid meetings are currently unavailable.

### Fire Safety: Certificate of Fitness C-14

The City of New York Fire Department requires that all non-production chemical laboratories have a Certificate of Fitness for Non-Production Chemical Laboratories (C-14) holder to be present at all times during operation. The certificate is site specific to the City College campus and for the respective certificate holder. City College requires C-14 training to be completed once, as long as renewals of the certificates are maintained. For more information about applying for a Certificate of Fitness visit:

### OSHA Laboratory Safety Standard

This training includes information on lab standards and regulations set forth by OSHA. It includes potential hazards associated with the lab environment, along with applicable exposure control measures. City College requires the training to be completed every three years.

### RCRA Hazardous Waste Management

Hazardous Waste Management (HazWaste) Training includes information pertaining to EPA regulations governing proper disposal of waste generated during research or experiments. City College requires this training to be completed annually as per EPA regulations.

### Radiation Safety

Radiation Safety Training is required for individuals who plan on working with or in the vicinity of radioactive materials. Training material includes detail on the various kinds of radioactivity workers may be exposed to, potential hazards associated with radiation, and appropriate radiation safety procedures.
