Fundamental Institutional Goals

The overarching goal in all College planning is to orient the College's historic mission to the evolving needs of society, our students, and the institution. The following five fundamental institutional goals are central to almost all strategic planning initiatives of the past decade and the present strategic plan:

1. Promote all our students' holistic success and prepare them to make an impact.
2. Advance research, scholarship and creative activity.
3. Build a caring community of the whole people that serves the public good.
4. Ensure financial stability.
5. Maintain and enhance campus facilities.
