☐ **I HAVE ATTACHED MY COMMITMENT TO CURIOSITY**

Most challenges that education majors run into during advanced coursework happen because of a lack of curiosity and unwillingness to pursue their own writing, thinking, and study independent of classroom contexts. It is important to the Early Childhood Education Program at CCNY CWE that you are curious about something other than teaching. We believe that curiosity in and beyond classrooms is essential to the development of well-rounded "whole" teachers who will be capable to respond to the needs of the whole child inside and outside of the classroom. Will you commit to curiosity? If so, share 2-4 sentences about something you will be curious about other than ECE while you complete the ECE program.

(PLEASE ATTACH YOUR RESPONSE WITH YOUR RESUME OR WORK SUMMARY)

☐ **I HAVE ATTACHED A COPY OF MY RESUME OR WORK SUMMARY, INCLUDING MY EXPERIENCE (IF ANY) WITH CHILDREN AGES 0-8.**

☐ **I HAVE SIGNED MY STATEMENT OF UNDERSTANDING:**

I certify that the information on my admission application is accurate and complete.

I understand that an invitation to an admission interview in **March 2026** will be based on my meeting all the criteria for admission at the time of the admission interview.

I must take the SEAT exam prior to my interview. If I have not taken the SEAT before the interview, I will not be allowed to interview.

I acknowledge:

1. That as a student enrolled in a program designed for working educators, **it may take me more than 2 years after the interview to complete my degree** in early childhood education. I understand that I am not guaranteed a fast pace and that classes needed will be subject to availability.
1. That I have been informed of the student teaching requirement for my final semester at CCNY CWE. This requirement involves completing 70 consecutive full days of experience in a general education classroom (inclusive of bilingual and ICT), assigned in accordance with NYSED ECE Birth-2nd Grade certification guidelines.
1. And finally, by signing this document, I further acknowledge that I commit to upholding professional ethics that include but are not limited to not plagiarizing or misusing artificial intelligence to complete assignments and submitting fieldwork documentation that is accurate. I understand that failure to uphold such standards can be cause for dismissal from the program regardless of how many classes I have completed or how close I am to graduation.
