- The latest version of the curriculum sheet supersedes any curriculum and pre/co-requisite information in the Undergraduate Bulletin or online.**
- "C" Passing Grade Requirement:** Courses in shaded area require a minimum passing grade of "C".
- Skills tests:** Certain students may be required to pass CUNY Assessment Tests in one or more subjects within 1 or 2 years of admission.
- Liberal Arts electives:** BME students must take Engr 30000 Social, Economic, and Cultural Impact of Biomedical Technology (3 credits), as well as five approved courses (15 credits), of which at least one (3 credits) must be at the 20000 level or higher. They should satisfy each of the Flexible Core (Pathways) liberal arts requirements in the Creative Expression (CE), World Cultures & Global Issues (WCGI), Individual & Society (IS), and U.S. Experience (US) areas. Prior courses in these four areas from other colleges can satisfy the electives. See ccny.cuny.edu/engineering/pathways for details and the Pathways course lists. A prior degree may remove the requirement of all four courses.
- Pre-med Curriculum:** Pre-med students must take the Organic Chemistry sequence (Chem 26100, 26200, 26300) as the Technical Electives, which increases the total credits by 2. Chem 32002 Biochemistry is then taken in place of Chem 21000, and Chem 26100 & 26300 replace Chem 21000 as a pre-requisite for Bio 22900.
- Other Graduation Requirements:** Apply for graduation during registration for the last semester. Minimum GPA of 2.00. Minimum QPA of zero. Residency Requirement: ENGR 30000 and 27 credits of 30000-level or higher Biomedical Engineering courses taken at CCNY.
- Program Changes:** Substitution of other courses for required courses must be approved by the Chair of the Biomedical Engineering Department (ST-401), and Associate Dean of the Office of Undergraduate Affairs (ST-209).
- Transfer students who have completed Engr. 23000 (Thermodynamics) must complete ME 35600 (Fluid Mechanics) instead of **ChE 22900 (ChE Thermodynamics)**.
- Undergraduate students are required to have a GPA = 2.75 or higher and special permission in order to take graduate courses.
- Students applying to the BE(BME)/ME(BME) 4+1 option must take BME 17300 instead of BME 50300, and obtain a grade of "B" or higher to receive graduate credit for the course.**

Total Credits: 131 - 133.
