- The latest version of the curriculum sheet supersedes any curriculum and pre-/co-requisite information in the Undergraduate Bulletin or online.**
- “C” Passing Grade Requirement:** Courses in shaded area (■) require a minimum passing grade of “C”.
- Skills tests:** Certain students may be required to pass CUNY Assessment Tests in one or more subjects within 1 or 2 years of admission.
- Liberal Arts electives:** EE students must take five approved courses and Engr. 27600 (Engineering Economics) for a total of 18 credits (six courses) of which at least 6 credits (two courses) must be at the 20000 level or higher. A list of approved courses is posted on the School of Engineering web site at ccny.cuny.edu/engineering/gen-ed and can be viewed at the Office of Undergraduate Affairs (ST-209) or the Office of Student Programs (ST-2M7).
 - Each course falls into one or more liberal arts *clusters*, specified in the list. The six courses must collectively occupy at least three clusters. The four clusters are: (f) Professional and Ethical Responsibilities, (g) Communication, (h) Global and Societal Context, and (j) Contemporary Issues.
 - Most students must also satisfy Pathways liberal arts requirements. See ccny.cuny.edu/engineering/pathways.
- Lecture Elective Requirements:** Total 6 courses (18 credits) with at least 3 courses (9 credits) from EE courses.
- Other Graduation Requirements:** Apply for graduation during registration for the last semester. Minimum GPA of 2.00. Minimum QPA of zero. Residency Requirement: 36 credits of 30000-level or higher Electrical Engineering courses taken at CCNY.
- Transfer students with credit for Math 21200 (or Math 20200)** are considered too advanced for Engr 10100. They should take a 1-credit advanced EE lab instead. FIQWS 10026 fulfills the requirements for Engl 11000 and Engr 10100.
- Program Changes:** Substitution of other courses for required courses must be approved by the Chair of the Electrical Engineering Department (ST- 602), and the Associate Dean of the Office of Undergraduate Affairs (ST 209).
- ENGL 21007 (Writing for Engineering)** is a required course in the electrical engineering major instead of a General Education requirement.
