NEW! 40-Hour HAZWOPER and 8-Hour HAZWOPER refresher courses

The Office of Continuing and Professional Studies at The City College of New York has partnered with the Division of Sciences of The City College of New York to the most essential certification in the environmental consulting industry. OSHA's HAZWOPER standard applies to employees who are engaged in

(1) clean-up operations at uncontrolled hazardous waste sites,
(2) corrective actions involving clean-up operations at sites covered by the Resource Conservation and Recovery Act of 1976,
(3) voluntary clean-up operations at sites recognized by federal, state, local, or other governmental body as uncontrolled hazardous waste sites,
(4) operations involving hazardous wastes that are conducted at treatment, storage, and disposal facilities, and
(5) emergency response operations for releases of hazardous substances regardless of the location of the hazard.

Exclusive Courses Feature-
- OSHA Authorized full-time teaching faculty of The City College of New York.
- Training meets current industry, government, and academic standards.

Angelo Lampousis is an OSHA Authorized Professor from the Department of Earth and Atmospheric Sciences, The City College of New York. He is involved in curriculum development efforts in collaboration with US-based standards development societies (e.g., ASTM and ANSI), and is lecturer of Science and Technology at Macaulay Honors College of the City University of New York.
