

City Facts Fall 2014 Part II
Assessment, Faculty & Sponsored Program \$'s

CITY FACT PART II

ACKNOWLEDGMENTS

Thanks to the people who helped with City Facts:

Ariel Cohn - Manager of Information Systems in the CUNY Office of Institutional Research & Analysis [OIRA] - and CUNYFIRST guru. Without her work on the CUNY Instructional Research Data Base [IRDB] City Facts would be impossible.

The CUNY Office of Institutional Research & Analysis [OIRA] staff for their help with my - far too many - questions.

Rodel Sena for his help, patience and for guiding me through the CUNYFIRST SQL tables.

Alan Shih Grants and Sponsored Programs Director for Grants and Sponsored Programs for providing the Sponsored Program \$'s: 2004-2005 to 2014-2015 data.

Ed Silverman, Director
Institutional Research Office
January 2016

PREFACE

CITY FACTS 2014 Part II is a new publication of the Institutional Research Office (IR). Why a new publication? If the information in it were to be included in the City Facts 2014 with 28 tables each with a decade of information - your coffee would be cold before it down loaded.

It has:

- 1) Undergraduate & Transfer Students' Graduation Rates: 2000-2009
- 2) Fall 2014 Faculty & Staff by Department
- 3) Sponsored Program \$'s: 2004-2005 to 2014-2015

Data Sources and Interpretation of the Statistical Tables

City College Graduation Data come from information in the CUNY OIRA IRDB. Like the Show Data, the Records and Registration Office each semester submits to the CUNY Central Office a "fixed" or "frozen" data file of CCNY graduates. It is the CUNY Central Office's official enrollment statistical source in preparing reports for the New York State Education Department (NYSED), the National Center for Education Statistics (NCES), the Integrated Postsecondary Education Data System (IPEDS) as well as reports for other government agencies. These CUNY Office of Institutional Research and Analysis (OIRA) IRDB data is the source for *CITY FACTS* tables and graphs showing our graduation information.

Postsecondary Graduation Rates*

The graduation rate is calculated as the total number of students (full-time first-time bachelor's -or equivalent-degree-seeking undergraduates) who completed a degree within 150 percent of the normal time to degree attainment divided by the number of students in the initial cohort.

Specifics:

- 1) Of the initial cohort, how many completed the program in four years or less
- 2) Of the initial cohort, how many completed the program in more than four years but in five years or less
- 3) Of the initial cohort, how many completed the program in more than five years but in six years or less
- 4) Total graduating within six years (sum of 1-3 above)
- 5) Six-year graduation rate for the cohort (Total graduating within six years divided by the total number in the initial cohort)

Integrated Postsecondary Education Data System (IPEDS) A U.S. Department of Education database collected by the U.S. Department of Commerce, Bureau of the Census, for the National Center for Education Statistics (NCES). Students who registered, but withdrew prior to the end of the third week in the semester are excluded. Changes made by Records and Registration after the third week, are not reflected in these tables.

*SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data To see the complete terms and definitions used by IPEDS go to: <http://nces.ed.gov/ipeds/glossary/>

Class standing is based on total cumulative credits earned prior to the present semester. This creates the following groups of students:

Freshmen	0-30
Sophomores	31-60
Juniors	61-90
Seniors	91-120+
Graduate	0-36+

When the degree indicator shows the student is enrolled in a degree program, but class level is missing, the student is classified as a freshman.

The ethnicity information in City Facts uses the CUNY OIRA Institutional Research Data Base's data. Many students do not report their ethnicity, but for a number of reasons it is important to have reasonably accurate information of the actual number of students in each ethnicity category. To this end, CUNY OIRA uses a federally approved algorithm to impute ethnicity for students with missing ethnicity information. For example, supposed we have six ethnicity categories (Asian, Black, Hispanic, Native American, White, Foreign) and no information about X's ethnicity. Guessing at X's ethnicity at random carries a 16.67% probability of arriving at her actual ethnicity. Using the CUNY OIRA's algorithm based on name, address, high school and other known information, there is a 75% probability of arriving at X's actual ethnicity. For large enough groups, the numbers of students in each ethnicity category come close to the actual numbers because errors cancel each other out to a large extent.

2000-2009 First-time Freshmen Six-Year Bachelor Degree Graduation Rate by Gender

Gender	Cohorts	Cohort N	Graduated from CCNY (%)	Graduated Any CUNY College (%)
Women	2000	399	36.1	39.1
Women	2001	310	46.8	50.6
