The City College of New York
GRADUATE PROGRAM IN ECONOMICS

POLICY ON EPERMITS

Effective immediately, all students enrolled in the M.A. Program and B.A./M.A. Program will be permitted to enroll in courses at other CUNY campuses through the ePermit system as follows:

- **One ePermit course per year, at student’s discretion**

I will not otherwise normally limit access to ePermits, except where, at my discretion, special circumstances warrant, or where this policy is otherwise in conflict with other policies.

This policy will remain effective until January 1, 2011, or until amended.

Please be advised that although I will not generally otherwise limit your access to ePermits, there are circumstances where I believe it is advisable to pursue an ePermit, and other situations where it is *not* advisable.

GOOD USE OF E-PERMITS

- Taking a course not offered (ever) at CCNY that is important to your course of study

ACCEPTABLE, THOUGH NOT BEST, USE OF E-PERMITS

- Taking a course not offered at CCNY in a particular semester when you truly believe you need to take it immediately. (Often, there are other options – have you considered them?)

NOT A GOOD USE OF E-PERMITS

- Taking a course elsewhere for convenience
- Taking a course elsewhere because you did not pass it here the first time

Please make wise use of ePermits. If you have any questions, or would like advice on the wise use of ePermits, please speak with me about it.

Professor Matthew Nagler
Director, M.A. Program in Economics
