

City Facts Fall 2018

Uses the Americans With Disabilities Act (ADA) Standards

PREFACE

CITY FACTS 2018 describes CCNY student demographics. It is an annual publication of the Institutional Research Office (IR). Most of its 33 tables have a decade a few have 5 years of information.

Student Data: The Years

Here are Fall semester enrollment trends and other student data. Total student data comes first followed by undergraduate, graduate - Masters and Engineering Ph.D. students - the CUNY Grad Center gets credit for our other PHD students.

Notes

Context-specific references are in each table and graph in CITY FACTS.

Sources give details on how CUNY treats statistical enrollment and course data.

Data Sources and Interpretation of Statistical Tables

ACKNOWLEDGMENTS

Thanks to the people who helped with City Facts:

Ariel Cohn - Manager of Information Systems in the CUNY Office of Institutional Research & Analysis [OIRA] - and CUNYFIRST guru. If she had not created & maintained the CUNY Instructional Research Data base [IRDB] all City Facts editions would be impossible.

Rodel Sena - CCNY's Director of Application Development Services - for teaching me how to use the CUNYFIRST SQL tables and their coding; and for being a good man & colleague.

Annamma Abraham - Programmer (CUNYFIRST Group) for teaching me how to use the CUNYFIRST SQL tables and their coding; and for being the good woman & colleague.

The CUNY Office of Institutional Research & Analysis [OIRA] staff for their help with my - far too many - questions.

Ed Silverman, Director
Institutional Research Office
August 2018

TABLE OF CONTENTS

Preface

Acknowledgments

Table 1: Undergraduate and Graduate Enrollment by Fall Terms 2009-2018 & by Full/Part-time Status, Gender & Class Level

¹Graduate students are in Masters or Advanced Certificate programs except for Engineering & one Psychology program that has PhD's. Other PhD students are taught at CCNY, however the CUNY Graduate Center keeps their records and grants their degrees.

²Part-time, Graduate Education students in Westchester and Rockland are included in this table.

³Total numbers include Permit Undergraduate, Masters students from other CUNY colleges, CUNY BA students and Senior Citizens Auditing a Course.

¹FTEs are calculated by dividing total credits by 15 for Undergraduates and by 12 for Graduate students.

²Includes CUNY Honors College, SEEK, Permit students from other CUNY colleges. Excludes High School Students.

³CUNY BA students and High School Students Taking college courses.

⁴Source: CUNY OIRA Institutional Research Data Base [IRDB]

⁵FTE means Full-time Equivalency” for the purposes of full-time enrolled students. If an institution has 10,000 (student) FTE it may have 8,000 full-time students and 4,000 half-time students.

⁶In the States, IPEDS has the authoritative definition of FTE students <https://surveys.nces.ed.gov/ipeds/VisFaqView.aspx?mode=reg&id=11&show=all#384>

Data Sources and Interpretation of the Statistical Tables

CITY FACTS information comes from several different sources:

A: The Show Data comes from information in the CUNY OIRA Institutional Research Data Base [IRDB] and from the CUNYFIRST Data Base. The data represents the College's enrollment at the end of the third week of each semester and is a "fixed" or "frozen" data file. [The time was established by the federal government as the official time for all institutions of higher education for their reporting. It was done to make comparisons possible.] It is used by the City University of New York (CUNY) Central Office's official enrollment statistical source in preparing reports for the New York State Education Department (NYSED), the National Center for Education Statistics (NCES), the Integrated Postsecondary Education Data System (IPEDS) as well as reports for other government agencies. CUNY's statistical treatment of enrollment and course data for the Show Data follows:

1) Students who registered, but withdrew prior to the end of the third week in the semester are excluded. Changes made by Records and Registration after the third week, are not reflected in these tables.

2) Permit students, (i.e., students who are taking classes at CCNY), but are getting their degrees from another CUNY college, are included in the computation of full-time equivalent (FTE - see Technical Note "**FTE calculation**") students and are included in the CCNY enrollment head count. CUNY credits them to their home college. Thus their number differs from those in City Facts.

3) CUNY BA students are handled the same way as Permit students.

4) Class standing is based on total cumulative credits earned prior to the present semester. This creates the following groups of students:

Freshmen	0-30
Sophomores	31-60
Juniors	61-90
Seniors	91-120+
Graduate	0-36+

Non-degree students in three groups: Lower, Upper and Graduate. They are in the head count.

5) When the degree indicator is missing, the student is classified as non-degree.

6) When full- or part-time status is missing, the student is classified as part-time.

7) When the degree indicator shows the student is enrolled in a degree program, but class level is missing, the student is classified as a freshman.

8) Credits generated by undergraduate students in graduate courses are counted as graduate level credits in the calculation of student FTEs (- see Technical Note "**FTE calculation**") and, conversely, credits generated by graduate students in undergraduate courses are counted as undergraduate credits.

9) Non-Resident Aliens: According to the field definitions for the Show Data, there are two categories of Foreign Citizens and Non-Resident Aliens. Both of them are included in the Non-Resident Alien category in the IPEDS reports:

A Foreign Resident who pays non-resident tuition and is not eligible for TAP. (Includes any foreign student who has lived in New York for one year and/or has not been a permanent resident [green card holder] or applied for permanent residency at least one year prior to the start of the semester.)

A Foreign Resident who pays resident tuition and is not eligible for TAP. (For example, United Nations Personnel, Temporary Resident, Permanent Resident Pending or Refugee Pending).

10) The ethnicity information in City Facts uses the CUNY OIRA Institutional Research Data Base's data. Many students do not report their ethnicity, but for a number of reasons it is important to have reasonably accurate information of the actual number of students in each ethnicity category. To this end, CUNY OIRA uses a federally approved algorithm to impute ethnicity for students with missing ethnicity information. For example, supposed we have six ethnicity categories (Asian, Black, Hispanic, Native American, White, Foreign) and no information about X's ethnicity. Guessing at X's ethnicity at random carries a 16.67% probability of arriving at her actual ethnicity. Using the CUNY OIRA's algorithm based on name, address, high school and other known information, there is a 75% probability of arriving at X's actual ethnicity. For large enough groups, the numbers of students in each ethnicity category come close to the actual numbers because to a large extent errors cancel each other out.

Sources: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS) Graduation Rates and Institutional Characteristics components

The CUNY Office of Institutional Research and Analysis (OIRA) In Fall 2002 CUNY OIRA started using multiple admissions this data comes from the IRDB.

Integrated Postsecondary Education Data System (IPEDS) A U.S. Department of Education database collected by the U.S. Department of Commerce, Bureau of the Census, for the National Center for Education Statistics (NCES).

According to IPEDS:

A Non-Resident Alien is a person who is not a citizen or national of the United States who is in this country on a temporary basis, and does not have the right to remain indefinitely.

Resident Aliens who are not citizens or nationals of the United States who have alien registration receipt cards (Form I-551/I55), and who have been lawfully admitted for permanent residence are to be reported in the appropriate racial/ethnic

categories along with United States citizens. (See "A: The Show Data Non-Resident Aliens" above.)

To see the complete terms and definitions used by IPEDS go to: <http://nces.ed.gov/ipeds/glossary/>

THE CHRONICLE OF HIGHER EDUCATION Web Page (<http://chronicle.merit.edu>)

Technical Note

Level by Credits

LOWER DIVISION

Freshmen:

Lower 0-15

Upper 16-30

Sophomores:

Lower 31-46

Upper 47-60

UPPER Division

Juniors:

Lower 61-75

Upper 76-90

Seniors:

Lower 91-106

Upper 107 or more

STUDENT FTEs (Full-time Equivalent)

An FTE statistic is usually used in assessing resources (expenditures, capacity).

For the fall and spring terms the FTE for each student per term is based on the number of credits of the courses the student is enrolled in that term (both equated and regular) divided by the number of credits defined as full-time status (15 for undergraduates and 12 for masters students) in each of three categories :

Fall and Spring Terms: Full time Status

- Undergraduate credits / 15
- Graduate (master's) credits / 12
- PHD Level I PHD students the formula is the same for master's students. Level II PHD student is considered 1 FTE regardless of the number of credits he/she has enrolled in.

Level III PHD student is .695 of an FTE regardless of the number of classes the student is taking.

Summer: Full time Status

- Undergraduate credits / 30
- Graduate (Master's) credits / 24
- PHD (see above)

In the **IRDB** the FTE statistic is computed for each course per term per student. The contribution of each of the courses are aggregated to the students term FTEs. If a course is 2 credits it will contribute 2/15 to the students term FTEs. If an undergraduate student is taking a graduate level course the FTE contribution of that course will be computed at the graduate level and will show up in the graduate FTEs and the total term FTEs.

College Now students are included in the FTEs for all colleges.

Senior citizens included in the FTEs of the community colleges but excluded from them in the senior colleges.

An undergraduate student who takes 15 credits in a fall or spring semester is considered 1 FTE for that semester. An undergraduate student taking 12 credits in a fall or spring semester is considered 4/5 of an FTE.
