

## CUNY Elementary Algebra Final Exam

Beginning Fall 2012, the CUNY Assessment Test in Mathematics will no longer be used to determine exit from developmental arithmetic/pre-algebra or elementary algebra courses and interventions.

### **Students enrolled in arithmetic/pre-algebra**

developmental courses, workshops or other interventions will be able to demonstrate readiness for elementary algebra by meeting the college's requirements for passing the course, workshop, or intervention.

### **Students enrolled in elementary algebra**

developmental courses, workshops or other interventions will be able to demonstrate readiness for college level courses in mathematics by: 1) passing the University-wide CUNY Elementary Algebra Final Exam with a score of 60 or higher; and 2) earning an overall average of a 74 or higher in the intervention. The CUNY Elementary Algebra Final Exam will be worth 35% of the final grade.

Sample tests, review materials, including the List of Learning Objectives for the CUNY Elementary Algebra Final Exam, are available [here>>](#)
